Career Objective

Motivated and detail-oriented recent graduate with a strong foundation in full stack development for both web and mobile applications. Seeking an entry-level position where I can contribute to building responsive frontends, scalable backends, and maintainable codebases that enhance user experience and support business objectives.

Profile Summary

- **Front-End Development:** Proficient in HTML5, CSS3, JavaScript (ES6+), React.js, and Tailwind CSS for building responsive, interactive, and modern web interfaces.
- **Back-End Development:** Hands-on experience in Node.js, Express.js, MongoDB, MySQL, and Cloudinary for creating scalable, secure, and efficient server-side applications and RESTful APIs.
- **Mobile App Development:** Skilled in Flutter and Firebase for developing cross-platform mobile applications, with integration of Google Cloud services for backend support and scalability.

Education

SRM VALLIAMMAI ENGINEERING COLLEGE

Bachelor of Engineering in Computer Science and Engineering

Sept 2020 - April 2024

Chennai, Tamil Nadu

Experience

STIGMATA TECHNO SOLUTIONS | Full Stack Developer intern

April 2023 - May 2023

- Assisted in the development of web applications using MERN Stack.
- Collaborated with senior developers to implement new features and resolve bugs.
- Conducted testing and debugging to ensure application functionality and user satisfaction.

Technical Skills

- **Programming Languages:** HTML | CSS | JavaScript | Java | MySQL.
- **Frameworks & Stacks:** React.js | Node.js | Express.js | Tailwind CSS | Flutter.
- **Tools & Platforms:** GitHub | VS Code | Eclipse | Postman | Netlify | Vercel | Cloudinary.
- **Databases:** MongoDB | Firebase.
- **Soft Skills:** Problem Solving | Teamwork | Adaptability | Time Management | Critical Thinking.

Projects

Personal Portfolio Website | React. [Link](#)

- Developed a responsive React.js portfolio to showcase skills and projects with circle animations, SweetAlert, Web3Forms, and deployed on GitHub Pages.

E-Commerce Web application | MERN, Redux, TailwindCSS. [Link](#)

- Developed a fully functional e-commerce platform using the MERN stack with Redux, JWT for user authentication, Razorpay for secure payments, and Cloudinary for storing product images, admin dashboard with product management. Deployed both frontend and backend on Vercel.

E-Commerce Mobile application | Flutter, Riverpod, Firebase. [Link](#)

- Developed a full-featured e-commerce mobile application using Flutter with Riverpod for state management, integrating Firebase, Google Cloud Storage, OAuth and Google Sign-In for authentication, Razorpay for payments, and an admin dashboard for product management.
